**Areas Not in 1-14 (off-site)** would be locations that DO require an off-campus form on file.

**Areas Not in 1-14** would be locations in the space database, and do NOT require an off-campus form.

The off-site choice also requires an address on "address line 1" in Sunflower.

- If the location is a business, please include that address information.
- If the location is a private residence, please use "on file" and have the address information on the off-campus form filed with the DPA. **This information can be viewed in public reports, so for privacy concerns we do not want personal residences listed in the on-line system.**
