# Administrative Barriers to Collaboration between Stanford and SLAC: The Charge

- From Chi-Chang Kao and Ann Arvin/Kam Moler
- Streamline administrative processes between SLAC and Stanford
- Reduce administrative burden for researchers who work at the SLAC/Stanford interface
- Reduce administrate burden for administrators at both SLAC and Stanford

## The SLAC and Stanford Relationship

- Facilitates interdisciplinary research
- Use of facilities at both SLAC and Stanford
- Collaboration: SLAC & SU faculty and students
- The partnership is unique and complex
- Two separate regulatory agencies
  - Department of Energy for SLAC
  - Office of Management and Budget for Stanford

## **Identifying the Issues**

- -SLAC
- Suzanne Hansen and Sara Bible held four brainstorming sessions
  - SLAC and Stanford staff and faculty attended
  - Frank Topper facilitated the sessions
- Categorized the issues:
  - Topics that were resolved but may not have been clearly articulated or widely communicated
  - Requires significant reengineering
  - Requires some reengineering and communication
  - Very difficult given regulatory & resource constraints

#### **Examples**

- Funding to Stanford; hard to bring it over to SLAC; especially foreign funding
- It should not be so hard to know how much funding I have on all of my grants even though some are on campus and some are at SLAC
- Perhaps SLAC Procurement could assign a person to be the point of contact to the SU Institutes to help them navigate SLAC rules and processes

### **Future Topics**

- Federal Government guidance on International Engagements
- SLAC procurement
- SLAC business system access
- SLAC rostered staff vs campus rostered staff

.... your suggestions
