Updated guidance for researchers in laboratories

March 18, 2020

We have made a series of changes to ensure the safety and health of our community. We acknowledge that these changes come at a time of increased uncertainty and that they may also be inconvenient. We want to do what we can to support you.

We plan to begin a phased recovery of on-campus laboratory work, with rare exceptions to perform essential research.

As Stanford is beginning a phased recovery of on-campus laboratory work, with rare exceptions to perform essential research, we want to do what we can to support you.
